## Stalking Myths and Realities

**Myth:** Only celebrities are stalked.

**Reality:** 3.4 million people are stalked every year in the US. We may hear more about celebrity stalking cases in the media, but the vast majority of stalking victims are ordinary citizens.

**Myth:** Stalking is annoying but not illegal.

**Reality:** Stalking is a crime under the laws of all 50 states, the District of Columbia, and the federal government.

**Myth:** You can't be stalked by someone you are still dating.

**Reality:** If your current girlfriend or boyfriend tracks your every move or follows you around in a way that causes you fear, that is stalking.

**Myth:** Modern surveillance technology is too expensive and confusing for most stalkers to use.

**Reality:** Stalkers can buy surveillance software and hardware for as little as \$30 and can easily track victims' every move on a computer.

## TJ Cheerleaders Show Their Spirit with Purple Cheer Bows

Fans at a recent Thomas Johnson High School/Linganore High School football game saw a swath of purple along the sidelines as cheerleaders wore purple cheer bows in support of Heartly House.

The cheer bows were created by Hannah Light, a varsity cheerleader at Thomas Johnson. Fifty varsity and alumni cheerleaders purchased the bows to wear at the game - sending a message that they care about domestic violence, and raising more than \$300 to support Heartly House.

Hannah Light presents the proceeds of her fundraiser to Barbara Martin, Heartly House CEO.
